Volunteer

Our volunteers carry out a number of practical tasks, often working with a network of other volunteers in a particular area. They help to deal with straightforward questions, leaving the office staff free to deal with more complex issues.

Tasks can include all or some of the following.

- Carrying out path surveys and reporting problems
- Checking for problems relating to greens or commons
- Checking planning applications on the local authority website and in local papers
- Dealing with simple local enquiries using our information sheets as a guide
- Sharing existing knowledge of public paths, greens or commons
- Assisting campaign groups
- Acting as support and reassurance for new groups starting up
