Volunteer

Our volunteers carry out a number of practical tasks, often working with a network of other volunteers in a particular area.

Tasks can include all or some of the following:

- Carrying out path surveys and reporting problems to us
- Telling us of any problems relating to greens or commons
- Checking planning applications on the local authority website to see if they will affect paths, commons or greens
- Sharing existing knowledge of public paths, greens or commons
- Assisting campaign groups
- Acting as support and reassurance for new groups starting up
- Checking local authority websites where landowner statements have been deposited which could affect potential village green applications (see our website here <http://www.oss.org.uk/what-we-do/village-greens/landowner-statements-the-threat-to-village-greens/> for further information).
