Summary of case for which funding is sought with an explanation of how the public will benefit. If your case is a request for legal action to be taken in the society's name, or for a grant from our legal-action fund, you need to address each of the seven criteria in paragraph 3 of the guide to making an application which you can view on this page [here](#).

(Please continue on separate sheet if necessary)

If the funding is for legal action (rather than advice leading to possible legal action) what are the chances of success? (We normally will only support cases where professional advice suggests that there is a more than 50% chance of success)

How much do you need in total?

How much are you asking OSS to contribute?

How much has already been obtained/do you expect to obtain from other sources (excluding OSS contribution)?

When do you need the money?

What happens if you do not raise the full amount?

Please confirm that you have not already incurred the expenditure.

☐ By ticking this box, you confirm that you have read, understood, and accept our [Terms of Grant](#).

Please sign and date this form:

I declare that the information provided in this application is true and correct to the best of my knowledge

If you win your case and obtain costs, we will request the return of the OSS contribution in full or part.

The Open Spaces Society reserves the right to refuse any application.

**The application for funding must normally come from an individual or group who or which has been a member of the society for at least one year.*
